

S.I. Prefixes

A Cyberphysics Crossword

S.I. prefixes are letters (some of them *Greek!*) that are put in front of the symbol for a unit. They indicate that the number should be multiplied by ten to the power of something - you should know their names!

Across:

- 3 The S.I. prefix that means $\times 10^{-2}$
- 4 The S.I. prefix that means $\times 10^3$
- 7 The S.I. prefix that means $\times 10^6$
- 9 The S.I. prefix that means $\times 10^{12}$
- 10 The S.I. prefix that means $\times 10^{-6}$

Down:

- 1 The S.I. prefix that means $\times 10^{-12}$
- 2 The S.I. prefix that means $\times 10^9$
- 5 The S.I. prefix that means $\times 10^{-3}$
- 6 The S.I. prefix that means $\times 10^{-15}$
- 8 The S.I. prefix that means $\times 10^{-9}$
